Specifications

Capacity

Interval type	Multi-interval				Single interval
Capacity	Max. 3/6kg	Max. 6/15kg	Max. 15/30kg	Max. 30/60 lb	Max. 30 lb
Scale interval	e=1/2g	e=2/5g	e=5/10g	e=0.01/0.02 lb	e=0.01 lb
Weighing range	20g-6kg	40g-15kg	100g-30kg	e=0.01/0.02 lb	0.20-30 lb

Thermal printer

Label type	Die-cut label	Linerless label
Label width	25-80mm/ 0.98-3.1 inches	44-59mm/ 1.73-2.3 inches
Label length	20-150mm/ 0.79-5.9 inches	20-500mm/ 0.79-19.7 inches * * Maximum printing length is 300mm/ 11.8 inches
Dot density	12 dot/mm (300dpi)	

Label roll diameter ---------- Max. 210 mm (8.2 inches)
Label roll core diameter ------- 76 mm (3.0 inches)

Operation console

Display panel ---------- TFT LCD color (15 inches) touch panel
Operation keys ---------- Mechanical keys and touch screen
Memory for programmable files 18GB

General

Power source and power consumption
- AC120V;60Hz; 1.5A, 125W
- AC220-240V;50/60Hz; 1.0A, 125W

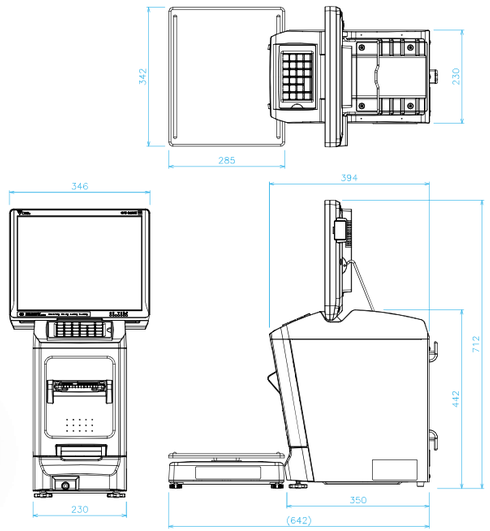

Net weight
- Main unit (Standed configration) • Single labeler type: 16.5 kg/36.4 lb
- Main unit (Modular configration) • Single labeler type: 19.7 kg/43.4 lb
  • Twin labeler type: 25.7 kg/56.7 lb
- Scale platform 3.8kg/8.4 lb

Operation humidity ---------- 90%RH(max.) with no condensation

DPS-5600II

High performance prepack scale printer

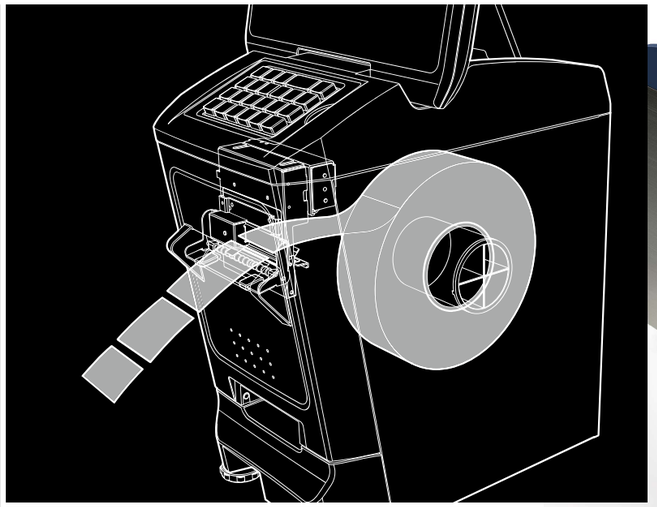

Searching for a New Balance

The DPS-5600II strongly supports the increasing need for label print requirements

The need for label print content to efficiently promote merchandise and to meet regulations has been increasing. This makes the labeling operation a lot more complicated. The DPS-5600II has extra-large memory capacity to contain all the necessary information to print, and makes the labeling operation as simple as possible.

Actual size

User friendly extra-large 15” full color touch screen

- Preset and frequently used function keys can be assigned for quick access. Size, color and location can be changed to suit your operation.
- Label print content can be previewed on the display, helping to prevent labeling errors.
- Extremely large memory easily supports increasing need for print items.

Various supplemental labeling with second printer option

Second labeler option is available to print supplemental labels such as ingredients, recipes or POP labels which help promote sales or satisfy regulations.

Easy label change

Very quick label roll exchange with minimum down time can be achieved with the simple spooling structure.

New 80mm width 300 dpi thermal head

A new 300 dpi thermal head enables clear and crisp label print. The 80mm of print width still allows large label sizes to be used for more information when needed. Head security function is equipped as standard, to prevent dot missing.

Two configurations to select from according to the place to install

DPS-5600II LL

Standard configuration

DPS-5600II requires less floor space and labels can be easily removed from the angled design.

DPS-5600MII LL
With optional stand

Modular configuration

DPS-5600MII provides flexibility in the layout of the console and labeler, even to mount on a hand wrap station.

Featuring linerless labeling

A new dimension for backroom operations.
Eliminate liner waste and increase flexibility and profits.

ex. 86mm ▶ 60mm

No more wasted white space on big labels

The auto-label-sizing feature eliminates unused space on the label and automatically adjusts the label size. This reduces the label cost and makes labels more attractive.

Increased flexibility in label format

The auto-cut feature cuts from a continuous strip of linerless labels every time a label is printed. Variable label layouts and sizes can be printed from a single roll.

POP label variations

Linerless label is available in different color options. On-demand POP label print strongly supports in-store sales promotion and efficient operation.
